Dear Governor Reagan:

We have the honor to submit the twelfth report on the work of the California Cooperative Oceanic Fisheries Investigations.

The report consists of two sections. The first contains a review of the administrative and research activities during the period 1 July 1966 to 30 June 1967, a description of the fisheries, and a list of publications arising from the programs. The second section consists of papers prepared for a special symposium on wide scale studies of the ocean held at La Jolla in December 1965.

Respectfully submitted,

THE MARINE RESEARCH COMMITTEE
