1 September 1971

The Honorable Ronald Reagan  
*Governor of the State of California*  
*Sacramento, California*

Dear Governor Reagan:

We have the honor to submit the fifteenth report on the work of the California Cooperative Oceanic Fisheries Investigations.

The report consists of three sections. The first contains a review of the administrative and research activities during the period 1 July 1969 to 30 June 1970, a description of the fisheries, and a list of publications arising from the programs.

The second section consists of papers presented at a symposium, "Development of the San Pedro Wetfish Fishery - A Systems Approach," held in December 1969 discussing economic and operational aspects of the industry as well as scientific data on the resources.

The third section is a scientific contribution to knowledge of the magnitude of a potentially valuable resource in California waters.

Respectfully submitted,

A handwritten signature in cursive script that reads "Charles R. Carry".

THE MARINE RESEARCH COMMITTEE  
Charles R. Carry, Chairman
